Summary

Retail operator with 5+ years across go-to-market (KFC Canada) and enterprise consulting (Deloitte), taking ambiguous, high-visibility programs from executive alignment through launch, in-restaurant execution, and weekly iteration across a **630+ restaurant, 54-franchisee network**. Led the marketing team's adoption of generative AI and built the internal GPTs it now runs on, replacing **∼$180K / yr** of vendor work.

Work Experience

KFC Canada (Yum! Brands) — Toronto, ON

Associate Marketing Manager – Innovation Portfolio — 07/2026 – Present

- Own **national product innovation end to end**, from consumer insight, pricing, and business case through POS programming and in-field CX audits; regularly present to the CMO, global franchisees, and global KFC team
- Initiated, negotiated, and owned the **Xbox / DOOM: The Dark Ages** campaign with Microsoft; co-planned and executed launches with **Warner Bros.**, **Disney**, **Cheetos**, **Winnipeg Jets**, and **Edmonton Oilers**
- Currently leading two confidential film partnerships (NDA), including a **major upcoming blockbuster with a national cinema-chain tie-in**: promo menu, new meals, digital
- Own the **go / no-go call on nearly every national launch**, pressure-testing packaging, supply, and restaurant readiness and re-planning into stronger commercial windows rather than shipping a weaker version
- Led the marketing team's **ChatGPT Enterprise pilot and rollout**: pitched senior leadership, set best practices, trained **∼25 colleagues**, and built the internal GPTs below
- **English–French translation GPT** grounded in years of KFC's past copy: handles **∼125 requests / month**, cutting from-scratch vendor translation (**∼$150K / yr**) to final proofreading only
- **Concept-imagery GPT** replacing vendor mockups for consumer user-testing panels (**∼$30K / yr**, 6 projects), a **franchisee deck builder** used in every quarterly deck, and a **finance Q&A connector** over scattered Excel / Power BI data; final production assets stay with vendors to hold the quality bar

Associate Marketing Manager – Value Portfolio — 12/2025 – 07/2026

- Built the new **Wow Value** platform from the ground up for shifting consumer economics (offer, cadence, investment, KPIs), compressing a typical **6+ month planning cycle to ∼2 months** and driving incremental transactions
- Owned national **Value portfolio strategy** across demand, pricing, profitability, operations, and franchisee priorities, with a testing pipeline (consumer research, user testing, financial modeling, in-market tests) behind every decision

Associate Marketing Manager – Digital Portfolio — 10/2024 – 12/2025

- Shaped app and CRM strategy through segmentation, personalized **always-on Braze journeys**, and continuous A/B testing of offer mechanics and price points, reviewing weekly and iterating on what moved the metrics: **Monthly Active Users +26%**, **app transactions +17%**
- Partnered with **Uber's engineering team** to develop and test a buy-one-get-another (BOGA) offer capability, **now available to every restaurant on the platform**; managed Uber ads and KFC's search placement on the platform
- Managed **Uber Eats, DoorDash, and SkipTheDishes** partnerships, owning **Black Friday / Cyber Monday** and negotiating six-figure partner investment reinvested into media, toward **25% YoY digital sales growth**; launched a **local restaurant marketing** program letting franchisees fund aggregator campaigns alongside national ones

Performance Retail Marketing Specialist — 01/2023 – 10/2024

- Executed the national retail calendar across **pricing, menu, innovation, value, merchandising, and direct mail**, programming offers directly in **POS** and auditing restaurants as a customer to fix in-field CX gaps
- Led **quarterly menu board revisions** end to end: product mix from sales data and trends, pricing tiers with global pricing consultants and Finance team, and creative with agencies to lift purchase and upsell intent

Deloitte Canada — Montreal, QC

Solution Developer – Cyber Security (Risk Advisory) — 07/2021 – 12/2022

- Consulted education-sector clients on **$1M+ ERP** security engagements: ran discovery and design sessions on **business security needs**, designed **custom role and access solutions**, and led implementation and risk assessments
- Built implementation checklists and **ERP** change reporting adopted by **100+ consultants**, cutting setup time

Skills

AI & Technical: ChatGPT Enterprise, custom GPTs and connectors, Claude, Codex; prompt and workflow design; agent fundamentals (prompts, tools, APIs, context); Braze, A/B testing, Power BI, GitHub, basic Python, Jira, Asana
Commerce / CX: POS systems, menu and pricing systems, delivery and marketplace platforms (DoorDash, Uber Eats, SkipTheDishes), app and loyalty programs, franchise operations

Education

Schulich School of Business, York University – *BBA, Marketing & Finance* — Toronto, ON · 2017 – 2021
